

INTERNATIONAL SEARCH REPORT

IPC Application No.
PC, JK2004/000930A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 F03D1/00 E04G3/10

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
IPC 7 E04G F03D

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	DE 32 28 732 A1 (KAEMPKE, HELMUT, ING) 2 February 1984 (1984-02-02)	1-19, 23, 24, 27, 31, 32, 40-43, 46, 48
Y	the whole document	20-22, 25, 26
Y	NL 1 011 375 C2 (SGE NORTH EUROPE B.V) 24 August 2000 (2000-08-24) page 3, line 14 - line 20 ----- -/--	20-22, 25, 26

☒ Further documents are listed in the continuation of box C.☒ Patent family members are listed in annex.

* Special categories of cited documents:

A document defining the general state of the art which is not considered to be of particular relevance

E earlier document but published on or after the international filing date

L document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

O document referring to an oral disclosure, use, exhibition or other means

P document published prior to the international filing date but later than the priority date claimed

T later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

X document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

Y document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

& document member of the same patent family

Date of the actual completion of the international search

15 July 2005

Date of mailing of the international search report

INTERNATIONAL SEARCH REPORT

International application No.
PCT/DK2004/000930

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. ☐ Claims Nos.:
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:

3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.

2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.

3. ☒ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
1-32;33-39 when dependent on 20-22,25,26 or 28-30;40-43;46;48;55-77

4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-20, 27; and 21-26, 28-39 when dependent on claim 20

Device for enabling access to a structure above ground level with inflatable securing elements

- 1.1. claims: 28-30 when not dependent on claims 20-22, 25, 26

Device for enabling access to a structure above ground level with means for lifting and/or lowering of anchoring means.

2. claims: 33-39 when dependent neither on claims 20-22, 25, 26 or claims 28-30

Device for enabling access to a structure above ground level with a platform with an indentation.

3. claims: 40-44; and 45-49 when dependent on claim 44

Device for lifting and/or lowering of objects in connection with a wind turbine with an uplift device fillable with air or gas

4. claims: 45 when not dependent on claim 44; and claims 46-49 when dependent on this claim 45

Device for lifting and/or lowering of objects in connection with a wind turbine with a part to control the position of the device in relation to the wind direction.

5. claims: 47 when not dependent on claim 44 or 45; and claims 48-49 when dependent on this claim 47

Device for lifting and/or lowering of objects in connection with support parts for legs of the uplift device.

6. claims: 49 when not dependent on claims 44, 45 or 47

Device for lifting and/or lowering of objects in connection with gripping part comprising strips comprising a surface having friction enhancing means.

7. claims: 50-54

A transporting and storing device.

FURTHER INFORMATION CONTINUED FROM PCT/SA/ 210

8. claims: 55-72, 73-77

Device for enabling access to a structure above ground level
by lowering and/or lifting the device in relation to the
structure with an endless track/endless path.
